OnX Enterprise Solutions proudly enters 2006 Microsoft® Partner Program Winner's Circle

TORONTO, Aug 8th, 2006 – OnX Enterprise Solutions Inc., (TSX:ON), “OnX”, a leading provider of IT services and mid-market outsourcing solutions, is delighted to announce that Microsoft Corp. has named the company a 2006 Microsoft® Partner Program Award Winner. OnX is both a finalist for the Partner of the Year - Custom Development: Sales and Marketing and an Award Winner for the Excellence Award - Custom Development: Solutions Web Development.

“We are pleased to have been selected from among our peers as a 2006 Microsoft Partner Program Award Winner as it honours our superior ability to leverage Microsoft innovation to solve customer problems,” comments Colin Thomson, Director, Microsoft Application Technologies Practice, OnX BlueSpark.

The Custom Development Solutions Awards recognize partners that focus primarily on development of customized solutions and tools built on Microsoft technologies and solutions using the Visual Studio family of development tools. Specifically, custom development partners may deliver highly custom-built solutions to support customer unique business practices, deliver one-off enhancements that allow customers to integrate existing systems with new technologies, or develop extensions to existing Microsoft solutions that the customer may already employ. The Awards honour partners that are serving unique customer needs by developing on and with Microsoft technologies and solutions in the areas of application infrastructure development, smart client development and Web development.

The Custom Development Solutions Awards are part of the 2006 Microsoft® Partner Program Awards which honour Microsoft Registered, Certified and Gold Certified partners that developed exemplary solutions for their customers during the past year. Nearly 2,400 entries were submitted by partners worldwide, and finalists were selected based on their dedicated use of Microsoft technologies to provide solutions for their customers' needs. The winners were revealed and honoured at the Microsoft Worldwide Partner Conference 2006, Microsoft's premier annual partner event, July 11–13, 2006, in Boston.

“Each year, Microsoft has the distinct pleasure of recognizing Registered, Certified and Gold Certified partners that have demonstrated an impressive level of creativity in using technology to deliver excellence to their customers,” said Allison Watson, corporate vice president of the Worldwide Partner Group at Microsoft. “The finalists and award winners exceeded expectations in delivering outstanding customer service and optimization of Microsoft technologies.”
