OnX Enterprise Solutions Wins Gold and Silver Channel Elite Awards

Toronto, October 30, 2006 – OnX Enterprise Solutions Inc. (TSX: ON), “OnX”, a leading provider of IT services and Internet outsourcing solutions, announced today that it has won both a gold and a silver Channel Elite Award (CEA) for 2006. The awards were presented October 18, 2006 at the Paramount Conference & Event Venue in Vaughan, Ontario.

OnX struck gold in the “Best Mid-Market Solution” category which recognizes partners that have created the most innovative desktop, server or networking solutions for a mid-sized organization or department with 101 to 250 seats. OnX’s gold-winning solution is an intranet portal designed and built for Psion Teklogix. Using Microsoft SharePoint technologies, the innovative portal gives Psion Teklogix staff easy access to key customer data to improve decision-making and enhance customer service.

OnX earned a silver award in the “Best Online Solution” category which honours innovative online solutions for web-based business or portals of any size. OnX developed a customized business intelligence solution, based on SQL Server and Microsoft Visual Studio® technologies, for the Region of Durham. The developed solution allows for web entry by the development community, automated workflow, and routing between the Local Municipalities, and Region for faster, more efficient and timely processing. *OnX is also managing and operating the solution for the next five years.*

“OnX takes great pride in winning CEA recognition. And while earning gold and silver awards is a testament to how OnX is using innovation and expertise to design, build and operate technology powered business solutions, it is more than that. The awards are also recognition of the important role that OnX and other members of Canada’s IT channel have in helping to improve the way in which businesses of any size can use online technology to successfully compete -- locally, nationally and globally,” said Sheldon Pollack, CEO of OnX.

OnX adds these latest awards to its ever-growing list of 2006 achievements which includes being named a Microsoft® Partner Program Award winner and capturing six gold-level competencies in the Microsoft Partner program.

About The Channel Elite Awards

Created in 2002 by *Computer Dealer News*, the Channel Elite Awards recognize the achievements of the most creative and innovative solution providers in Canada who build technology solutions. Judging criteria includes originality in the application of IT, customer benefits such as measurable improvements in sales, revenue or costs reduction, increased efficiency and improved internal or external customer service sites.
